GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-51

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") was created pursuant to the request of Travis and Williamson Counties and in accordance with provisions of the Transportation Code and the petition and approval process established in 46 Tex. Admin. Code § 26.01, et. seq. (the "RMA Rules"); and

WHEREAS, the Board of Directors of the CTRMA has been constituted in accordance with the Transportation Code and the RMA Rules; and

WHEREAS, HB 3588, passed by the 78th Texas Legislature, authorizes regional mobility authorities to develop projects through the use of comprehensive development agreements ("CDAs"); and

WHEREAS, the CTRMA has adopted procurement policies which conform to HB 3588 and which provide for the receipt and processing of unsolicited proposals for project development through use of a CDA; and

WHEREAS, on September 15, 2003, the CTRMA received an unsolicited proposal for the development of U.S. 183-A from Zachary/Kiewit 183-A Partners, L.P.; and

WHEREAS, in Resolution No. 03-58 dated November 5, 2003, the CTRMA Board of Directors authorized the initiation of the CDA process and directed staff to issue a request for competing proposals ("RFCQ") in response to the receipt of the unsolicited proposal; and

WHEREAS, in accordance with the CTRMA procurement policies, staff issued the RFCQ on December 19, 2003, and caused the RFCQ to be published in the *Texas Register* with responses due on February 2, 2004; and

WHEREAS, the CTRMA received five responses to the RFCQ, and based on those responses and other analyses the CTRMA, on February 25, 2004, designated a "short-list" of proposer teams to receive a Request for Detailed Proposals ("RFDP") for the development of US 183-A; and

WHEREAS, in Resolution No. 04-02, dated February 25, 2004, the CTRMA Board of Directors directed staff to begin work on a draft RFDP; and

WHEREAS, the Board of Directors of the CTRMA, on May 5, 2004, authorized staff to issue the final RFDP documents to each of the three short-listed teams previously designated; and

WHEREAS, on August 16, 2004, the CTRMA received responses to the final RFDP from the three short-listed teams; and

WHEREAS, the CTRMA staff and consultants carefully reviewed the responses and evaluated them through a process designed to assure fairness and objectivity in the review and evaluation of the responses; and

WHEREAS, based on the evaluation of the RFDP responses, the CTRMA Executive Director recommended to the Board that the proposal received from Hill Country Constructors was the one that provided the best value to the CTRMA; and

WHEREAS, the Board of Directors approved of the selection of Hill Country Constructors as the team presenting the best value proposal to the CTRMA for the development of US 183-A and directed the Executive Director and staff to finalize a CDA for the development of US 183-A with Hill Country Constructors and to present the CDA to the full Board for approval; and

WHEREAS, staff has been engaged with Hill Country Constructors to finalize a CDA for the development of US 183-A; and

WHEREAS, staff now recommends approval of the CDA with Hill Country Constructors and issuance of Notice to Proceed No. 1 ("NTP1"), subject to first securing all necessary approvals of TxDOT and the FHWA;

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors approves the CDA with Hill Country Constructors for the development of US 183-A, subject to first securing all necessary approvals of TxDOT and the FHWA; and

BE IT FURTHER RESOLVED, that Executive Director and staff are directed to issue NTP1 upon execution of the CDA on behalf of the CTRMA.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October 2004.

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-52

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") was created pursuant to the request of Travis and Williamson Counties and in accordance with provisions of the Transportation Code and the petition and approval process established in 46 Tex. Admin. Code § 26.01, et. seq. (the "RMA Rules"); and

WHEREAS, the Board of Directors of the CTRMA has been constituted in accordance with the Transportation Code and the RMA Rules; and

WHEREAS, HB 3588, passed by the 78th Texas Legislature, authorizes regional mobility authorities to develop projects through the use of comprehensive development agreements ("CDAs"); and

WHEREAS, the CTRMA solicited proposals for the development of US 183-A and conducted a thorough evaluation process, designed to assure fairness and objectivity and to determine which proposal provided the best value to the CTRMA; and

WHEREAS, in Resolution No. 04-43, dated September 8, 2004, the Board of Directors approved of the selection of Hill Country Constructors as the proposer that provided the best value to CTRMA and directed the Executive Director and staff to finalize a CDA for the development of US 183-A with Hill Country Constructors and to present the CDA to the full Board for approval; and

WHEREAS, in Resolution No. 04-51, dated October 27, 2004, the Board of Directors approved and authorized the execution of the CDA with Hill Country Constructors for the development of US 183-A and directed the staff to issue Notice to Proceed No. 1 upon execution of the CDA; and

WHEREAS, the work performed under the CDA will require oversight by the general engineering consultant retained by the CTRMA (the "GEC"); and

WHEREAS, the GEC has developed a scope of work and proposed budget for the work necessary to oversee the design and construction activities performed under the CDA; and

WHEREAS, a copy of that proposed scope of work and budget is contained in the work authorization attached hereto as Exhibit A (the "CDA Work Authorization"); and

WHEREAS, the CTRMA Board of Directors must approve the CDA Work Authorization before the GEC may proceed to work thereunder; and WHEREAS, the CTRMA Board of Directors desires to authorize the performance of work included within the CDA Work Authorization on a quarterly basis following a report from the GEC on work performed to date and an explanation of work to be performed during the next quarter; and

WHEREAS, the funding for the GEC oversight and the work performed under the CDA Work Authorization shall be solely from the existing toll equity grant money for US 183-A and/or the CTRMA's financing of the US 183-A project, including the proceeds of the issuance of toll revenue bonds;

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors approves the scope of work contained in the CDA Work Authorization subject to the GEC presenting, on a quarterly basis, a report on work performed to date under the CDA Work Authorization and receiving board approval of work to be performed during the next quarter; and

BE IT FURTHER RESOLVED, that all work performed under the CDA Work Authorization shall be subject to the Agreement for General Consulting Civil Engineering Services between the CTRMA and the GEC; that all work performed under the CDA Work Authorization shall be funded solely from the existing toll equity grant money for US 183-A and the proceeds of the project financing for 183-A; and that no additional work may be undertaken without the specific approval of the Board of Directors.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October 2004.

CENTRAL TEXAS RMA

ATTACHMENT A – SCOPE OF WORK

WORK AUTHORIZATION NO. 4

SERVICES TO BE PROVIDED BY THE GENERAL ENGINEERING CONSULTANT (GEC)

Comprehensive Development Agreement Oversight

The work to be performed by the General Engineering Consultant (GEC) will include project management services necessary to oversee the design and construction of the US 183-A Tollway project through the use of a Comprehensive Development Agreement (CDA). This will entail those professional services and associated deliverables required to complete the oversight activities associated with the management of the CDA Developer (hereinafter referred to as the Developer).

The GEC will be the single point of contact between the CTRMA and Developer, acting as an extension of CTRMA staff by providing qualified technical and professional personnel to perform the duties and responsibilities assigned under the terms of this Agreement. The GEC shall not control the design and construction under the CDA Oversight reviews by the GEC will not relieve the Developer of sole responsibility for the means and methods of design and construction, or for health or safety precautions in connection with the work under the CDA.

1.0 CDA Project Management Oversight

The GEC will maintain a core staff at the Developer-provided US 183-A field office to administer, manage and coordinate the overall CDA oversight efforts. This staff will itepresent the CTRVIA's interests as defined in the CDA Request for Detailed Proposals (REDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff:

- A. Project Manager
- B. Deputy Project Manager
- C. Technical Advisors (2)
- D. Office Manager
- E. Controls & Billing Manager
- F. Office Administrator

Specific tasks will include:

- 1.1 Manage and administer the planning, execution, and control of all aspects of the CDA oversight, including all activities required to complete same in accordance with the CDA RFDP and contract.
- 1.2 Coordinate the oversight activities with the Developer and other appropriate entities.
- 1.3 Provide technical advice from senior-level staff to guide the oversight activities.
- 1.4 Document and report to the CTRMA the Project activities and progress.
- Develop and maintain a staffing plan to ensure appropriate levels of oversight staffing.
- 1.6 Prepare communications between the CTRMA and the Developer.
- 1.7 Manage, document and appropriately distribute communications between the CTRMA and the Developer.
- Participate as a representative of the CTRMA in all partnering activities associated with the Project.
- 1.9 Participate as a representative of the CTRMA in all weekly meetings
- 1.10 Review and comment on all monthly and weekly reports submitted by the Developer.
- 1.11 Provide office management for the oversight staff.
- 1.12 Provide office administrative functions for the oversight staff.

2.0 CDA Design Oversight

The GEC will maintain a core staff at the CDA provided US 183-A field office to administer, manage and coordinate the CDA design oversight review and audit efforts. This staff will represent the CTRMA's interests as defined in the CDA Request for Detailed Proposals (RFDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff:

- Design Manager
- B. Toll Facilities Design
 - Lead Toll Facilities Engineer
 - Archite
 - 3. Mechanical / Electrical / Plumbing (MEP) Engineer
 - 4. Intelligent Transportation Systems (ITS) Engineer
- C. Structural Design
 - 1. Lead Structural Engineer
 - 2. Structural Engineer
 - 3. Geotechnical Engineer
 - 4. Renewable Energy Specialist
- D. Roadway Design
 - 1. Lead Roadway Engineer
 - 2. Roadway Engineer (2)

- 3. Drainage Engineer
- 4. Pavement Engineer
- 5. Traffic Engineer
- 6. Signage / Striping Engineer
- 7. Lighting / Signals Engineer
- 8. Utility Coordination Engineer
- 9. Aesthetics Specialist
- 10. Landscape Specialist
- 11. Engineering Support

E. Environmental Coordination

- 1. Lead Environmental / Permitting Specialist
- 2. Wetlands Specialist
- 3. Karst Specialist
- 4. Water Quality Specialist
- 5. Archeology Specialist
- 6. Threatened & Endangered (T&E) Species Specialist
- 7. Hazardous Materials Specialist

Specific tasks will include:

- 2.1 Perform oversight reviews and audits of Developer-provided information related to Toll Facility, Structure and Roadway designs in accordance with the CDA RFDP and Contract, including the following elements:
 - 2.1.1 Interim schematic design
 - 2.1.2 Ultimate schematic design
 - 2.1.3 Clearing & grubbing design package
 - Grading (rough) design package
 - 2.1.5 Grading (finished) & drainage design package
 - 2.1.6 Final roadway design package
 - 2.1.7 Reliminary intermediate, pre-final, and final bridge plans
 - 2.1.8 Miscellaneous structures
 - 1.9 Preliminary and final geotechnical reports
 - 2.110 Preliminary and final pavement design reports
 - 2.1.11 Preliminary, intermediate, and final level of service traffic analyses reports
 - 2.1.12 Signalization studies, warrants, and plans
 - 2.1.13 Drainage designs
 - 2.1.14 Hydraulic and scour studies and FEMA submittals for stream crossings
 - 2.1.15 Landscape designs
 - 2.1.16 Aesthetic elements
 - 2.1.17 Toll facility designs
 - 2.1.18 Miscellaneous designs
 - 2.1.19 Participate in comment resolution processes
 - 2.1.20 Developer submitted requests for variances or design exceptions

- 2.1.21 Provide concurrence with certification of compliance submissions by the independent quality assurance firm retained by the Developer
 2.1.22 Shop drawing oversight review and coordination
 2.1.23 Notices of design changes during construction
 2.1.24 Field clarification requests during construction
 2.1.25 Requests for information during construction
 2.1.26 Other design-related issues that arise during construction
- 2.2 Perform oversight reviews and audits of Developer-provided information related to Environmental components of the Project in accordance with the CDA RFDP and Contract, including the following elements:
 - 2.2.1 Review of environmental site assessments (ESAs) submitted by the Developer for R/W parcels to be acquired by the Developer for the Project
 - 2.2.2 Review of Phase II ESA proposed scopes of work and Investigative Work Plans for R/W parcels with potential Recognized Environmental Conditions discovered during the ESA process
 - 2.2.3 Review Letters to Affected Property Owners and meet with concerned citizens to discuss environmental issues, as required
 - 2.2.4 Review Archeological and Historic Property Phase I & II survey reports, Test/Data Recovery Plans and reports, and SHPO-FRHP nomination packages, as required.
 - 2.2.5 Review design plans and design changes for conformance with environmental commitments
 - 2.2.6 Review field construction activities for conformance with permits and environmental commitments
 - 2.2.7 Maintain database to track and verity permit compliance and Clearance of Construction.

3.0 CDA Public Involvement Oversight

The GEO will maintain staff at the Developer-provided US 183-A field office to administer manage and coordinate the overall CDA public involvement oversight efforts. This staff will represent the CTRMA's interests as defined in the CDA Request for Detailed Proposals (RFDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff:

A. Public Relations Manager

Specific tasks will include:

3.1 Manage and administer the planning, execution, and control of all aspects of the CDA Public Involvement oversight, including all activities required to complete same in accordance with the CDA RFDP and contract.

- Work with the Developer in developing a Public Information Plan (PIP) for the Project.
- 3.3 Manage / coordinate public and media inquiries regarding the project.
- 3.4 Assist the CTRMA in response to open record requests.
- 3.5 Coordinate with the Developer to prepare weekly updates on the Project.
- Coordinate with the Developer to prepare and conduct monthly briefings to stakeholders, as required.
- 3.7 Review all Project related public involvement documents prepared by the Developer.
- 3.8 Assist in updating the Project web site.
- Coordinate the issuance of public notices of traffic phase changes and local road detours and closures with the Developer.
- 3.10 Coordinate and provide Project tours for visitors and other delegations as requested by the CTRMA.
- Participate in open public forums or other public project presentations or meetings as requested by the CTRMA.

4.0 CDA Right-of-Way / Utility Oversight

The GEC will maintain staff at the Developer provided US 183 Å field office to administer, manage and coordinate the overall CDA right-of-way and utility coordination / relocation oversight efforts. This staff will represent the CTRMA's interests as defined in the CDA Request for Detailed Proposals (RFDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff.

- A. Lead Right-of Way Specialist
- B. Lead Utility Specialist

Specific tasks will include:

- 4.1 Rerform oversight reviews and audits of Developer-provided information related to right-of-way and utility components of the Project in accordance with the CDA RFDP and Contract, including the following elements:
 - 4.1.1 Technical support to the Developer to resolve contract and design issues with utilities impacted by the Project
 - 4.1.2 Review utility adjustment plans prepared by the Developer
 - 4.1.3 Review new utility permit applications prepared by the Developer
 - 4.1.4 Review new utility designs and provide assistance with payment authorization
 - 4.1.5 Review claims of unidentified utilities submitted by the Developer and processing of associated documents
 - 4.1.6 Provide assistance in resolving utility conflicts

4.1.7	Provide oversight review of location, materials, and backfilling of
	trenches associated with utility adjustments
4.1.8	Monitor and report utility adjustment status
4.1.9	Review monthly draw requests submitted by the Developer
4.1.10	Provide assistance in scheduling issues and conflict resolution with
•	utility owners and other outside agencies
4.1.11	Provide information to the Developer concerning previous land
	acquisition negotiations with certain property owners along the Project
	corridor
4.1.12	Coordinate the preparation of Eminent Domain packages to be
	submitted by the Developer in relation to land acquisition

5.0 CDA Construction Oversight

The GEC will maintain a core staff at the CDA provided US 183-A field office to administer, manage and coordinate the CDA construction oversight review and audit efforts. This staff will represent the CTRMA's interests as defined in the CDA Request for Detailed Proposals (RFDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff:

- A. Construction Manager
- B. Resident Engineer
- C. Construction Oversight
 - 1. Senior Structural Inspector (I)
 - 2. Structural Inspector (2)
 - Senior Pacilities Inspector (1)
 - 4. Senior Roadway Inspector (1)
 - 5. Roadway Inspector (3)
 - 6. Senior Utilities Inspector (1)
- D. Materials Testing
 - Materials Manager
 - 2. Materials Testing Staff (assumed staffing of 1 Senior Technician and 3 Technicians)
- E. Field Surveys
 - 1. Survey Manager
 - 2. Survey Crew (3 person)
- F. Environmental Compliance
 - 1. Environmental Compliance Lead
 - 2. Water Quality Inspector

Specific tasks will include:

- 5.1 Establish field offices and field laboratory.
- Review the Developer's plan for construction quality control and assurance procedures to be used in the field.
- Review mix designs as submitted by the Developer for concrete, asphalt and lime as appropriate and required by the project design and specifications.
- Provide plan constructability reviews in coordination with the Consultant Design Quality Manager.
- Assist the Consultant Design Quality Manager in review of Developer initiated alternative design or substitution proposals.
- 5.6 Provide quality assurance oversight on construction activities of the Developer.
- Review the Developer's quality control and quality assurance material testing results for conformance to the Developer's Quality Control Plan and the appropriate provisions of the CDA including off-site materials testing and certification.
- 5.8 Provide Owner verification testing of materials incorporated into the project.
- Maintain a material testing data base and other statistical analyses in a computerized data base format.
- 5.10 Attend and prepare meeting minutes of weekly construction progress meetings with the Developer.
- 5.11 Develop and utilize a tracking system and review as necessary submittals from the Developer.
- 5.12 Provide vertical and horizontal control checks to verify construction is in reasonable accordance with the accepted project plan layout.
- 5.13 Review traffic control plans submitted by the Developer. Monitor in the field the plan implementation by the Developer.
- 5.14 Review and significant formance reports including review of proposed remedial actions by the Developer.
- Perform audits of the independent construction quality assurance firm and the Developer to verify conformance with the CDA.
- 5.16 Provide technical support in the review of the Developer's construction schedule and construction schedule updates. Resolve any schedule dispute issues.
- 5.17 Review and provide recommendations to the Owner for processing of the Developer's partial and final pay requests. Evaluate the pay requests for proper documentation and signature by the Developer in accordance with the requirements of the CDA.
- Assist in change order negotiation and provide review of change order documentation; make recommendations to the Owner on change order requests initiated by the Developer. Review Developer's cost estimates and specifications on Owner requested extra work. Evaluate any Developer claims for extensions of time and make recommendations to the Owner.
- 5.19 Assemble supporting documentation and otherwise assist in dispute negotiations and claims resolutions.

- 5.20 Coordinate with the Developer in the generation of preliminary and final deficiency lists. Monitor the resolution of outstanding construction items.
- 5.21 Maintain documentation of electronic and hard copy files to support the construction oversight activities of the Consultant. Provide status reports as required by the Owner.
- 5.22 Coordinate the efforts of all engineering subconsultants.
- 5.23 Provide technical support and management assistance as required by the Owner toward the successful completion of the project.

6.0 CDA Project Controls

The GEC will maintain a core staff at the CDA provided US 183 A field office to administer, manage and coordinate project controls activities on the Project. This staff will represent the CTRMA's interests as defined in the CDA Request for Detailed Proposals (RFDP) and CDA Contract. To effectively perform the tasks associated with this scope, it is anticipated that the GEC will provide the following staff:

- A. Project Controls Managers
- B. Document Control Specialis
- C. Cost Estimator
- D. Claims Specialist
- E. Schedule Specialis

Specific tasks will include

- 6.1 Maintenance of servers, workstations, and network equipment as required for the CDA oversight staff
- Security monitoring of network access
- 6.3 Troubleshooting of issues for CDA oversight system users
- 6.4 Maintenance of database and software associated with the Electronic Document Management System (EDMS) and the user interfaces with EDMS
- 6.5 Maintenance of the tracking databases for submittals, issues, material test data, and related technical data associated with the Project
- 6.6 Mainterfance of the Project website
- 6.7 Backup of data generated for the Project
- Identification, receipt, entry into the EDMS, tracking/logging and distribution of Project related required document (incoming or outgoing) submittals / deliverables
 - 6.9 Auditing of information associated with the documents in the EDMS
- 6.10 Retrieval of documents as a result of open records requests

- 6.11 Providing mail services for the Project including receipt, logging, capture into the EDMS and distribution of incoming / outgoing faxes, mail (US, Priority, Courier, Internal and External)
- 6.12 Training of CDA oversight personnel in the use of EDMS applications and work processes

Explanation of Oversight Fee

Central Texas Regional Mobility Authority (CTRMA) October 2004

ISSUE:

The US 183-A TIFIA loan application submitted in July of 2004 estimated the management and oversight cost of the project at approximately \$16.1 million. An oversight agreement should be in place prior to issuance of Notice to Proceed 1 (NTP1) so that CTRMA has the personnel available to respond to the Developer's activities, review the initial submittals, and to set up the project office prior to NTP2. The GEC will need to staff a significant number of positions in the months between NTP1 and NTP2 as well. The GEC will be at risk that bond financing will not occur within 90 days of NTP 1 and will attempt to limit oversight services to within the \$12.7 million Mobility Fund source until NTP 2 and bond funds are available.

The purpose of this paper is to clarify why CTRMA's oversight of the management, design, and construction is an important aspect when utilizing the design-build process and to what extent the oversight should be applied.

BACKGROUND:

There are several reasons oversight is required on the US 183-A project:

- Per 23 CFR 637.205, FHWA requires the owner to have a quality assurance program, to maintain an adequate and qualified staff to administer the program, to have independent assurance on testing, and to have verification sampling.
- The trust indenture for bond financing requires assurances for the quality of the project, which will last for the life of the bonds, and require the owner to sign off each month that the work and materials have been properly incorporated into the project.
- The CDA commits the CTRMA to provide limited reviews of 30%, 65%, and 100% design submittals, conduct over-the-shoulder reviews as design progresses, and attend recurring in-progress design workshops. The CTRMA will also be required to approve and oversee the Developer's Project Management Plan, Public Involvement Plan, and Environmental Mitigation Plan.

There are also several reasons that an appropriate amount of oversight is recommended on the US 183-A project:

- Assurance that the Developer is meeting the contract requirements and that CTRMA and the investors are getting what they paid for.
- Assurance that the Developer doesn't cut corners and that the appropriate designers and construction personnel are producing a quality product.
- The ultimate responsibly for maintenance rests with the owner. The CTRMA will have higher maintenance costs in years 10-40 if construction is not completed in a quality manner.
- CTRMA needs to have adequate oversight staff, first hand knowledge, and records in order to review and render decisions on Developer claims and change order requests.

Determination of Extent of Oversight required:

The number of personnel and the extent of oversight required to conduct the design reviews, the assurance review, audits and testing depends on the amount of risk the CTRMA and its financial supporters wish to take.

The Developer is required to provide a Design Quality Management Plan (DQMP) and a Construction Quality Management Plan (CQMP). These plans outline the Developer's quality control. The CDA requires the Developer to retain the services of a Quality Assurance Firm that is an <u>independent</u> on-site firm reporting to both the Developer's Management Team and the CTRMA. By utilizing the Quality Assurance Firm, the CTRMA will not need to spend the amount typically observed on a design-bid-build project rather only enough to manage the project and to insure proper design and verify quality construction.

The following projects utilized similar design and construction oversight contracts. The scope of each of these projects is slightly different. A more detailed explanation of each project is attached in Appendix A.

Sample Projects with Similar Program Management Responsibilities							
Project	Client	Constr Cost	Oversight Fee	%			
SH 45 SE	TTA	\$156,000,000	\$13,000,000	8.3%			
SH 130	TTA	\$1,034,527,000	\$90,000,000	8.7%			
San Joaquin Hills &	TCA Orange	\$1,557,000,000	\$158,000,000	10.1%			
Eastern Trans Corridor	County						
Legacy Project	Utah DÖT	\$230,000,000	\$24,000,000	10.4%			
US 367 projects	Mo DOT	\$98,000,000	\$9,800,000	10.0%			
Whittier Tunnel	Alaska DOT	\$57,000,000	\$4,600,000	8.1%			
I-229	SDDOT	\$32,000,000	\$2,450,000	7.7%			
Denver Airport	. City	\$3,200,000,000	\$255,000,000	8.0%			

Recommended US 183-A Oversight:

An appropriate level of oversight enables the CTRMA to uphold its duty to its users and bond holders. The GEC has developed an organization chart, scope, and manpower estimate to provide the oversight. The proposed anticipated oversight cost for both construction and design oversight is \$14,178,080, which is approximately 7.95% of the total \$178,312,913 CDA design/construction cost.

As with the procurement phase of this project, which remains on time and under budget, if the GEC finds the Developer's design and construction are of a high quality and the claims and change orders are minimized, then all of the oversight fee would most likely not be utilized.

Appendix A

CDA oversight Page 3 of 5

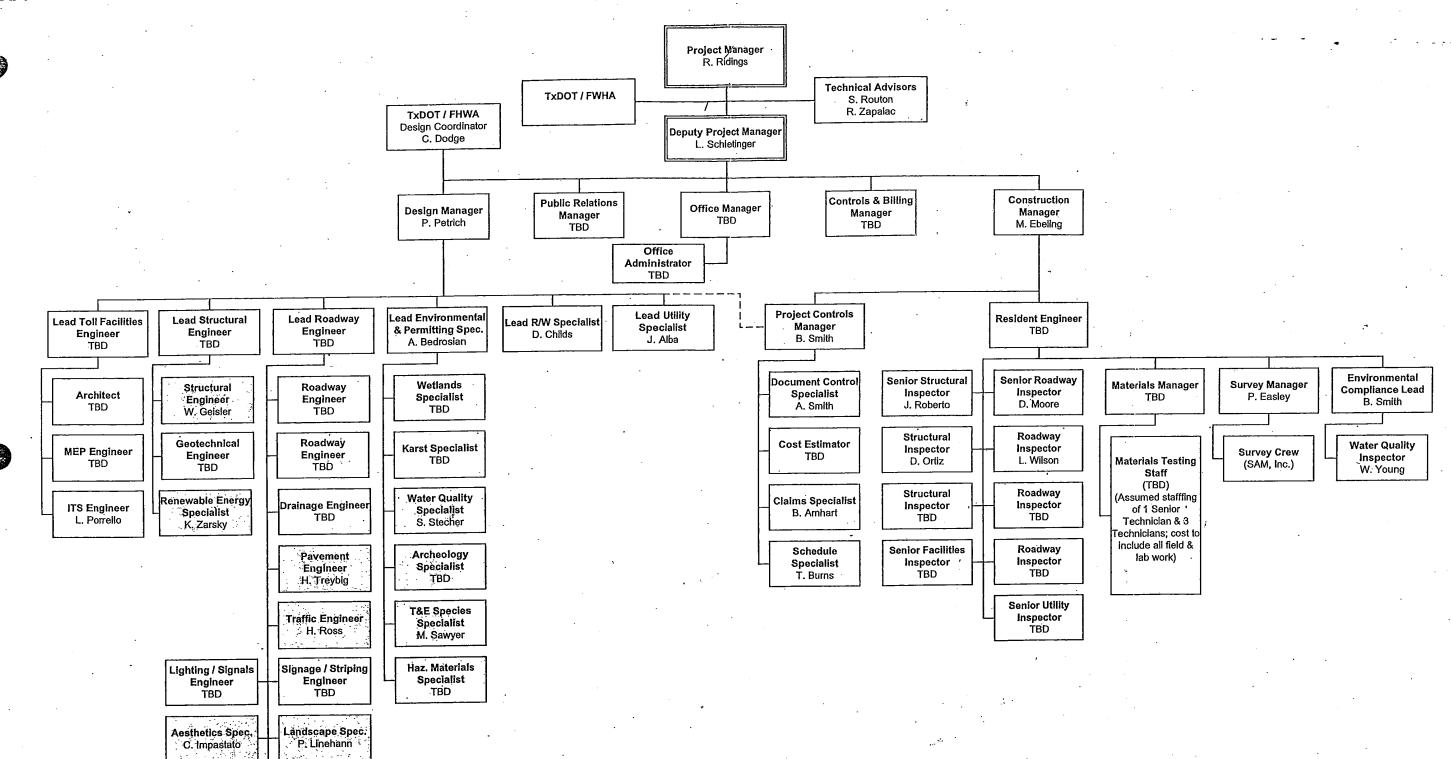

- 1) <u>SH 45SE:</u> Probably the most similar project to the US 183-A project is the \$156 million SH 45SE design-build project. The CDA scope was very similar to the scope prepared for US 183-A. TxDOT contracted the design and construction oversight for \$13 million or 8.3% of the design-build contract amount.
- 2) <u>SH 130:</u> TTA is contracting the oversight of the \$1 Billion, 49 mile SH 130 turnpike project through a series of work authorizations, each extending one to two years. The oversight scope is very similar to what would be required for US 183-A. The total budgeted oversight amount for which bonds were sold is \$115,352,000 this is 11.1% of the contract amount.
- 3) San Joaquin Hills and the Eastern Transportation Corridor: Transportation Corridor Agency (TCA) in Orange County has issued several work authorizations for Program Management (PM) and Construction Management (CM) of its two larger projects during the last 10 years. The PM & CM scope for the San Joaquin Hills and the Eastern Transportation Corridor Projects (Design-Build Contract amounts were \$792 million and \$765 million, respectively) is roughly the same as the scope for SH 130, although there was probably more design oversight than on the SH 130 Project. Program Management authorizations totaled \$102 million and the Construction Management authorizations totaled \$56 million for a total of \$158 million. For comparison purposes, the PM & CM amounts represented 10% of the Design-Build contract amounts [\$158/ (\$792+\$765)].
- 4) I-15 Salt Lake City Reconstruction: Utah Department of Transportation (UDOT) employees a PM (which includes CM) on the I-15 D-B project. The PM scope of the I-15 project is different from that proposed on US 183-A. The design oversight was roughly the same, but the construction oversight was significantly less (probably half of what is presently proposed on the TTA Projects). The PM cost is about \$85 million and the overall project cost is estimated to be \$1,680 million. For comparison purposes the PM amount represented 5.5% of the Design-Build contract amount. UDOT has indicated that they are concerned about the level of construction oversight, and on future projects have elected to increase the construction oversight to assure quality.
- Degacy Project: UDOT is finishing work on the 1st Phase of the \$230 million Legacy Project, just north of Salt Lake City. The PM's scope for this project has been modified based on lessons learned from the I-15 PM contract. The scope of the PM is almost identical to the scope of TTA's projects. The PM cost is presently estimated to be \$24 million dollars or roughly 10%.
- MoDOT 367: Missouri Department of Transportation (MoDOT) has a unique method for entering into PM services. They have placed several program management projects with various PM consultants during the last year. Their formulas for computing PM budgets are as follows:

CDA oversight Page 4 of 5

- Program and Design Management including management of right-of-way is 5% of estimated construction cost.
- Preliminary Engineering and Environmental Coordination is 5% of the estimated construction cost
- Construction Management including procurement is 5% of the estimated construction cost.

MoDOT used the above formulas to calculate the estimated budget of PM and CM services for their \$98 million, 4 year, US 367 projects. MoDOT awarded a contract for roughly 75% of the calculated amount with a caveat that the amount would be adjusted to reflect actual project requirements once a construction contract is awarded.

- Whittier Tunnel: Alaska Department of Transportation's \$57 million, 4 year, Whittier Shared Automobile/Train Tunnel project was recently completed as a D-B project. PM fees, without construction management (the DOT provided CM services internally), were at \$2.0 million. It is generally assumed that D-B Construction Management (utilizing Contractor QC/QA) fees range between 4 and 5% of the D-B contract amount. Based on the above, the added CM fees would be an additional \$2.6 million. For comparison purposes, the PM & CM amounts represented 8.1% of the Design-Build contract amount [\$(2.0+2.6)/\$57].
- 8) <u>I-229 Reconstruction:</u> South Dakota Department of Transportation completed construction of a \$32 million, 2-year D-B project on I-229 near Sioux City. The scope of the PM is similar to the scope presently proposed for TTA's projects, but includes no materials testing (which is estimated to be \$400K to \$500K). The PM cost is presently estimated to be \$2 million dollars. For comparison purposes, the PM amount represented 7.7% of the Design-Build contract amount [\$(2.0+0.45)/\$32].
- 9) The City of Denver used PM (which included CM) in the construction of the Denver International Airport (DIA). The project cost was roughly \$3,200 million and the PM/CM budget was \$255 million. The PM cost was roughly 8%.

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-53

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") was created pursuant to the request of Travis and Williamson Counties and in accordance with provisions of the Transportation Code and the petition and approval process established in 46 Tex. Admin. Code § 26.01, et. seq. (the "RMA Rules"); and

WHEREAS, the Board of Directors of the CTRMA has been constituted in accordance with the Transportation Code and the RMA Rules; and

WHEREAS, HB 3588, passed by the 78th Texas Legislature, authorizes regional mobility authorities to develop projects through the use of comprehensive development agreements ("CDAs"); and

WHEREAS, the CTRMA solicited proposals for the development of US 183-A and conducted a thorough evaluation process, designed to assure fairness and objectivity and to determine which proposal provided the best value to the CTRMA; and

WHEREAS, in Resolution No. 04-43, dated September 8, 2004, the Board of Directors approved of the selection of Hill Country Constructors as the proposer that provided the best value to CTRMA and directed the Executive Director and staff to finalize a CDA for the development of US 183-A with Hill Country Constructors and to present the CDA to the full Board for approval; and

WHEREAS, in Resolution No. 04-51, dated October 27, 2004, the Board of Directors approved and authorized the execution of the CDA with Hill Country Constructors (subject to the conditions identified therein) for the development of US 183-A and directed the staff to issue Notice to Proceed No. 1 upon execution of the CDA; and

WHEREAS, in connection with oversight of the construction of US 183-A by the CDA team it is important to provide for the independent testing of materials used in the project; and

WHEREAS, TxDOT has the resources and expertise to provide such testing services at a reasonable cost; and

WHEREAS, the CTRMA general engineering consultant recommends that the CTRMA enter into the attached Interlocal Agreement with TxDOT to provide material testing services in connection with US 183-A;

NOW THERFORE, BE IT RESOLVED, that the Board of Directors of the CTRMA hereby approves the entry into the Interlocal Agreement between The Texas Department of Transportation and the CTRMA set forth in <u>Attachment "A"</u>; and

BE IT FURTHER RESOLVED, that the Executive Director is authorized to execute such interlocal agreement on behalf of the CTRMA.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October, 2004.

ATTACHMENT A

Scope of Services

As requested by the CTRMA, TxDOT agrees to perform material inspection and testing services. Inspections will be performed at points in Texas where TxDOT routinely provides resident inspection services for its own highway materials. Out-of-State inspections for the CTRMA will only be performed when TxDOT has employees scheduled to conduct inspections for State projects at the requested location(s) or when TxDOT specifically accepts the assignment.

Inspections will be performed in substantial compliance with the specifications and instructions supplied by the CTRMA. As inspections and testing services are performed by TxDOT, written reports will be provided to the CTRMA and the CTRMA assignee. Reports will include date, time and nature of services performed and will be maintained by TxDOT for a period of four (4) years following the expiration of the agreement.

TxDOT and the CTRMA shall mutually agree on the inspection dates. TxDOT reserves the right to perform or reschedule inspection services in accordance with the following criteria:

- Availability of TxDOT's personnel to perform the necessary testing;
- When testing will not encumber testing performed by TxDOT for State projects.
- The right to reschedule the testing and inspection when it is determined by TxDOT that the
 originally scheduled time for testing and inspection of highway materials interferes with the
 testing and inspection for State projects.

Prior to TxDOT performing any inspections or testing, the CTRMA will issue work requests. Each work request will include the following:

- a. Project information (i.e. contract number project control numbers, etc.),
- b. Work Description,
- c. Type and quantity of material(s) to be tested and/or inspected,
- d. Assigned fabrication for each highway material including: the fabricator's location, contact, and phone number.
- e. Desired date of inspection, and
- f. Signature and telephone number of authorized CTRMA representative.

Changes to the work requests will require a supplemental work request.

ATTACHMENT B

General Terms and Conditions

Article 1. Amendments

This contract may only be amended by written agreement executed by both parties before the contract is terminated.

Article 2. Conflicts Between Agreements

If the terms of this contract conflict with the terms of any other contract between the parties, the most recent contract shall prevail.

Article 3. Payments

Invoice payments will be made within thirty (30) days of the invoice date and remittances must be made payable to Texas Department of Transportation

Article 3. Disputes

TxDOT shall be responsible for the settlement of all contractual and administrative issues arising out of procurements entered in support of contract services.

Article 4. Ownership of Equipment

Except to the extent that a specific provision of this contract states to the contrary, all equipment purchased by TxDOT under this contract shall be owned by TxDOT.

Article 5. Termination

is contract terminates at the end of the contract term, when all services and obligations contained in this contract have been satisfactorily completed, by mutual written agreement, or 30 days after either party gives notice to the other party, whichever occurs first.

Article 6. Gratuities

Any person who is doing business with or who reasonably speaking may do business with TxDOT under this contract may not make any offer of benefits, gifts, or favors to employees of TxDOT. The only exceptions allowed are ordinary business lunches and items that have received the advanced written approval of the Executive Director of the Texas Department of Transportation.

Article 7. Responsibilities of the Parties

Each party acknowledges that it is not an agent, servant, or employee of the other party. Each party is responsible for its own acts and deeds and for those of its agents, servants, or employees.

Article 8. Compliance with Laws

The parties shall comply with all federal, state, and local laws, statutes, ordinances, rules, and regulations and with the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this agreement.

Article 9. Signatory Warranty

Each signatory warrants that the signatory has necessary authority to execute this agreement on hehalf of the entity represented.

TxDOT's Inspection and Testing Rates

and

TxDOT's State Indirect Cost Plan

Notes:

- 1. The CTRMA will be responsible for all direct and indirect costs or expenses involved in the performance of TxDOT's services. Reimbursable costs will be based on actual tests and inspections performed and in accordance with the most current inspection rate schedule in effect for the fiscal year during which the work is accomplished. The indirect costs will be based on TxDOT's Indirect Cost Plan.
- 2. TxDOT's Construction Division, Materials and Pavements Section, Inspection & Testing Rates contained herein are based on established rates effective on July 13, 2004.
- 3. The attached list of inspections and testing rates is primarily for use with the Structural Branch and the Soils & Aggregates Branch. The other inspection and testing rates are provided as a contingency if the CTRMA subsequently requests services of the other Sections or Branches,

MEMORANDUM

TO:

Administration

District Engineers

Division Directors

Office Directors

FROM:

James M. Bass

Director, Finance Division

SUBJECT:

FY 2004 - Indirect Costs

Indirect cost rates, approved by the Federal Highway Administration, for general and administrative costs have been established for FY 2004. The statewide district rate is 7.27% and this includes the division rate of 4.18%. The statewide district rate is for billing individuals and local entities outside the department and should be utilized by all districts. Divisions and offices will use the 4.18% rate for billing purposes. These new rates are not retroactive and they will not change contracts negotiated under FY 2003 rates. The new rates are effective beginning September 1, 2003.

For federal billing and managerial reporting purposes only, district indirect costs will continue to be distributed to projects within the FIMS system using separate rates for each district. The attached document indicates each district's combined rate, which includes the division and office rate of 4.18%.

It is important that every individual involved in setting fees, negotiating contracts, or performing cost recovery functions be made aware of these new rates. Please distribute this memo accordingly.

All questions should be directed to Diana Smith at (512) 374-5456.

NOTE: The above rates are posted to the project ledgers and are used to bill FHWA for general and administrative costs. A statewide rate of 7.27% should be used by all districts when billing individuals and local entities. Divisions and Offices should use a rate of 4.18% for billing purposes.

^{*} These rates represent each district's individual rate plus the statewide administration rate of 4.18%.

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-54

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") was created pursuant to the request of Travis and Williamson Counties and in accordance with provisions of the Transportation Code and the petition and approval process established in 46 Tex. Admin. Code § 26.01, et. seq. (the "RMA Rules"); and

WHEREAS, the CTRMA is charged with funding and developing transportation improvements throughout the region to help solve the current mobility crisis and to improve the quality of life for residents of Central Texas; and

WHEREAS, CTRMA staff, working in partnership with the Austin District of the Texas Department of Transportation ("TxDOT"), developed a proposed "CTRMA/TxDOT Regional Implementation Program" (the "Program") which provides for the funding and development of various transportation system improvements through tolling of new roadway capacity; and

WHEREAS, implementation of the Program required amendments to the "2025 Transportation Plan" and the "Transportation Improvement Program" by the Capital Area Metropolitan Planning Organization ("CAMPO"); and

WHEREAS, CAMPO voted to approve the Program after adopting several resolutions affecting certain projects in the Program and encouraging the CTRMA to initiate various processes and implement certain procedures; and

WHEREAS, one of the resolutions encourages the CTRMA to consider certain factors in the establishment of tolling policies and to initiate a process for receiving public input on the establishment of such policies; and

WHEREAS, the CTRMA Planning Committee, working with staff and the CTRMA's consultants, has initiated a process for receiving public input on tolling policies and has developed draft recommendations concerning tolling policies for the purposes of receiving further public input; and

WHEREAS, the Planning Committee recommends for consideration by the full Board for purposes of receiving public input the draft tolling policies in Attachment "A";

NOW THEREFORE, BE IT RESOLVED, that CTRMA Board of Directors approves for public comment the draft tolling policies recommended by the CTRMA Planning Committee attached hereto as Attachment "A"; and

BE IT FURTHER RESOLVED, that the Board of Directors will hold a public hearing on the draft tolling policies November 10, 2004 at 7:00 p.m. at the Norris Conference Center located in Northcross Mall, 2525 West Anderson Lane, Austin, Texas.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October, 2004.

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-55

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") is empowered to procure such goods and services as it deems necessary to assist with its operations and to study and develop potential transportation projects; and

WHEREAS, close scrutiny of CTRMA expenditures for goods and services, including those related to project development, is the responsibility of the Board of Directors and its designees through procedures the board may implement from time to time; and

WHEREAS, the Board of Directors has adopted policies and procedures intended to provide strong fiscal oversight and which authorize the Executive Director, working with the CTRMA's accountant, to review invoices and approve disbursements; and

WHEREAS, the Executive Director, working with the CTRMA's accountant, has reviewed and authorized the disbursements listed on the disbursements report titled "Summary of Expenditures" from September 24, 2004 to October 21, 2004, included herewith as Attachment "A";

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors accepts the Disbursements Report included as <u>Attachment "A"</u>.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October, 2004.

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 04-56

WHEREAS, the Central Texas Regional Mobility Authority ("CTRMA") was created pursuant to the request of Travis and Williamson Counties and in accordance with provisions of the Transportation Code and the petition and approval process established in 46 Tex. Admin. Code § 26.01, et. seq. (the "RMA Rules"); and

WHEREAS, pursuant to Chapter 370 of the Texas Transportation Code RMAs are authorized to pursue and develop a wide variety of transportation projects, including congestion management projects; and

WHEREAS, on October 16, 2003, the CTRMA Board of Directors approved Resolution No. 03-53 approving the entry into an interlocal agreement with Williamson County (the "County") providing for the transfer of funds directly to the CTRMA; and

WHEREAS, that agreement identified the funds to be transferred as coming from the County's "2000 General Obligation Road Bond Program" and restricted the use of the funds to expenditures exclusively for the development of US 183-A; and

WHEREAS, the County and the CTRMA have agreed that the transferred funds should instead originate from the County's general revenues and be able for use by the CTRMA for any lawful purpose; and

WHEREAS, the County and the CTRMA desire to amend the previous interlocal agreement accordingly;

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors of the CTRMA hereby approves the amendment to the interlocal agreement between Williamson County and the CTRMA as set forth in <u>Attachment "A"</u>; and

BE IT FURTHER RESOLVED, that the Chairman be authorized to execute such amendment to the interlocal agreement on behalf of the CTRMA.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 27th day of October, 2004.

Submitted and reviewed by:

C. Brian Cassidy

Legal Counsel for the Central

Texas Regional Mobility Authority

Approved:

Chairman, Board of Directors Resolution Number 04-56

Date Passed 10/27/04

FIRST AMENDMENT TO INTERLOCAL AGREEMENT

THIS FIRST AMENDMENT TO I	NTERLOCAL AGREEMENT is made and
entered into effective this of	, 2004, by and between WILLIAMSON
COUNTY (the "County") and the CENTRAL T	EXAS REGIONAL MOBILITY AUTHORITY
(the "Authority"), political subdivisions of the St	ate of Texas.

WITNESSETH:

WHEREAS, effective as of September 30, 2003, the County and the Authority entered into an Interlocal Agreement providing for the transfer of \$300,000 from the County's 2000 General Obligation Road Bond Program to pay for various items related to the proposed US 183-A turnpike project; and

WHEREAS, the use of those proceeds were restricted to expenditures exclusively related to the development of the US 183-A turnpike project; and

WHEREAS, the County and the Authority have agreed that it would be advantageous for both parties if the funds made available by the County were not restricted exclusively to uses related to the US 183-A turnpike project, but instead are available for use by the Authority for any lawful purpose, including the development of US 183-A; and

WHEREAS, the County and the Authority desire to amend the Interlocal Agreement to reflect this desire;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained and contained in the original agreement, the undersigned Parties agree as follows:

I. FINDINGS

1. Recitals. The recitals set forth above are incorporated herein for all purposes and are found by the parties to be true and correct. It is further found and determined that the County and the Authority has authorized and approved this Agreement by resolution or order adopted by their respective bodies, and that this Agreement will be in full force and effect when approved by each party.

II. ACTIONS

- 1. Amendment to Previous Interlocal Agreement. In light of the recitals set forth above, the Parties desire amend the Interlocal Agreement in the following respects:
 - A. The portion of the original Interlocal Agreement which provides as follows:

"WHEREAS, the County has previously set aside funds from the 2000 General Obligation Road Bond Program to pay for various items relating to the proposed US 183-A turnpike project; and"

shall be amended and replaced in its entirety with the following language:

"WHEREAS, the County desires to make available from its General Fund funds to assist the Authority in executing all lawful purposes of its operations, including without limitation the activities necessary for development of the US 183-A turnpike project; and".

- B. Section II, Paragraph 2, which currently reads as follows:
 - "2. Acceptance of Transfer. The Authority hereby accepts the transfers of said funds and pledges to utilize said funds exclusively for the development of the US 183-A turnpike project."

is replaced in its entirety with the following:

"2. Acceptance of Transfer. The Authority hereby accepts the transfer of said funds and pledges to utilize said funds in pursuit of the lawful business of the Authority, including without limitation,

the development of the US 183-A tumpike project. The Authority further agrees that (a) it shall submit to the County an annual budget for the Authority's next fiscal year; (b) all expenditures of funds provided under this Agreement shall comply with that budget; and (c) it will to submit to the County, no less than quarterly, a report detailing how the Authority expended any and all funds received under this Agreement during that quarter. The County reserves the right to subject the Authority's records pertaining to this Agreement to an audit by the Williamson County Auditor. In such event, the Authority agrees to fully cooperate with the County, including making available any and all records necessary for the audit."

III. GENERAL AND MISCELLANEOUS

2. All other provisions of the Interlocal Agreement shall remain in full force and effect and shall not be affected or amended by this Agreement.

IN WITNESS WHEREOF, the Parties have executed and attested this Agreement by the officers thereunto duly authorized.
