Draft financial statements for August 2021

GENERAL MEETING OF THE BOARD OF DIRECTORS OF THE CENTRAL TEXAS REGIONAL MOBILITY AUTHORITY

RESOLUTION NO. 21-0XX

ACCEPTING THE FINANCIAL STATEMENTS FOR AUGUST 2021

WHEREAS, the Central Texas Regional Mobility Authority (Mobility Authority) is empowered to procure such goods and services as it deems necessary to assist with its operations and to study and develop potential transportation projects, and is responsible to insure accurate financial records are maintained using sound and acceptable financial practices; and

WHEREAS, close scrutiny of the Mobility Authority's expenditures for goods and services, including those related to project development, as well as close scrutiny of the Mobility Authority's financial condition and records is the responsibility of the Board and its designees through procedures the Board may implement from time to time; and

WHEREAS, the Board has adopted policies and procedures intended to provide strong fiscal oversight and which authorize the Executive Director, working with the Mobility Authority's Chief Financial Officer, to review invoices, approve disbursements, and prepare and maintain accurate financial records and reports;

WHEREAS, the Executive Director, working with the Chief Financial Officer, has reviewed and authorized the disbursements necessary for the month of August 2021 and has caused financial statements to be prepared and attached to this resolution as Exhibit A; and

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors accepts the financial statements for August 2021 attached hereto as Exhibit A.

Adopted by the Board of Directors of the Central Texas Regional Mobility Authority on the 29th day of September 2021.

Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instruction to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate. (2) This weighted average maturity calculation uses the final maturity of any floating rate instruments $held in the \, portfolio \, to \, calculate \, the \, weighted \, average \, maturity \, for \, the \, pool.$

The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee may be waved in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.

ECONOMIC COMMENTARY

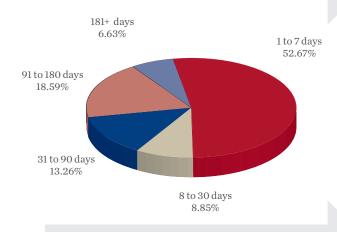

Market review

Recent economic data prints suggested a constructive macro outlook despite Delta variant concerns. Fed policy continued to remain accommodative, and risk markets marched higher as investors focused on news of the FDA's full approval of the Pfizer vaccine. Within fixed income markets, longer term U.S. Treasury note yields rose at the end of the month as Fed tapering expectations continued to be priced in, while Treasury bill yields were relatively unchanged. Strong data prints and easy monetary policy continued to provide a tailwind for economic growth, despite growth momentum having already peaked. August's flash purchasing managers' indices (PMIs) printed at 61.2 and 55.4 for manufacturing and services, respectively. Inflation has now well surpassed the FOMC's 2% target, as the headline PCE price index rose +0.4% month-over-month in the price index rose +0.4% month-over-month index rose +0.4% month-over-month-o(m/m) and +4.2% year-over-year (y/y) in July. The core PCE deflator also rose to +0.3% m/m and +3.6% y/y, with the latter slightly above market expectations. The July CPI report showed consumer prices rising at their fastest 12-month rate in more than a decade, but the moderation in the month-over-month pace signaled that some of the drivers of much higher inflation are beginning to subside. Headline CPI for July rose +0.5% m/m, from 0.9% in June, and +5.4% y/y, while consumer prices excluding food and energy rose +0.3% m/m and +4.3% y/y.

ECONOMIC COMMENTARY (cont.)

While inflation remained at elevated levels, July's figures signaled that some of the "transitory" components of much higher inflation are finally beginning to moderate. While this should give the Fed some confidence in their transitory argument, the rise in prices has certainly been stronger and more sustained than they predicted earlier this year. At the highly anticipated Federal Reserve's annual Jackson Hole summit, Chairman Powell's speech depicted a clearer outlook for tapering asset purchases. In his view, the inflation criteria for tapering asset purchases has now been met and while there is still "much ground to cover" before the economy reaches full employment, he broadly hinted tapering could begin before the end of the year. In line with this, we believe the Fed will announce a timetable for tapering later this fall, and begin to taper the pace of its purchases in December. He reaffirmed his view that current inflation levels are transitory and stressed that interest rate hikes are not imminent. After showing strong improvement in July, hiring momentum in August slowed sharply as the Delta variant curbed in-person consumer activity and businesses continued to grapple with chronic labor shortages. However, despite the slowdown in hiring, robust wage growth suggested the weakness is primarily supply-side driven. Total nonfarm payrolls increased by a meager +235,000 in August, falling well short of consensus expectations, but saw meaningful upward revisions to the June and July readings. The leisure and hospitality sector, which had been the powerhouse for job gains this year, significantly disappointed with zero net job creation. The leisure and hospitality sector is the most vulnerable to a demand slowdown from renewed pandemic worries, but they also have the lowest-paid workers and as such, are most impacted by acute labor shortages.

In contrast, the unemployment rate fell to 5.2% from 5.4% in July, while the labor force participation rate remained at 61.7%. Additionally, wages spiked higher as average hourly earnings, albeit a noisy series, continued to demonstrate robust improvement, rising 0.6% m/m and 4.3% y/y. It is clear the Delta variant and ongoing supply shortages have taken some steam out of the recovery. Still, the large jump in wages suggests the economy's issues are primarily supply-side driven. While August's job gain figure represents a significant drop in momentum in the labor market recovery, we do not believe this will derail the Fed's plans to taper by the end of the year. In terms of the U.S. federal budget, more questions remain as House Democrats passed the \$3.5 trillion budget resolution. Now, it remains within the Senate where there is strong sentiment for a smaller bill. House Speaker Nancy Pelosi committed to holding a vote on the infrastructure bill by September 27th. This should allow for both wings of the Democratic Party to agree on the contents of the reconciliation bill, which will likely be smaller than the \$3.5 trillion proposed. Once this is complete, then the end of September could, surprisingly, see the passage of the infrastructure bill, the reconciliation bill and an increase in the debt ceiling. With this backdrop, Treasury bill yields were relatively unchanged. The three-month Treasury bill yield ended the month at 0.04%, and the 12-month Treasury bill yield ended at 0.06%.

Outlook

The Delta variant continues to pose a risk to the recovery. While uncertainty has increased, it is unlikely to derail the recovery. In his Jackson Hole speech, Fed Chairman Jerome Powell gave some fairly clear signals on how and when the Fed expects to taper bond purchases and begin to raise short-term interest rates. When the Fed begins to taper purchases, it is beginning to look more likely that they will reduce them by \$15 billion per month, \$10 billion from Treasuries and \$5 billion from mortgage backed securities, reducing the total monthly pace of accumulation from \$120 billion in November 2021 to zero by July 2022. This would allow the Fed to take some time following the end of asset purchases before considering raising the federal funds rate, which they may want to do by the end of 2022, but will likely do in the beginning of 2023. Finally, it is now looking more likely that the Fed will make their tapering announcement in November rather than September. The stated reasons for this seem reasonable: The Fed wants to see how the Delta variant is impacting the economy and whether it will wane in the weeks ahead. They also want to see further signs of progress in the labor market after federal enhanced unemployment benefits come to an end next week.
